## Schedule of the Day

**8:30-9am Registration & Exhibitors Open**

**9-10:45am Books Build Better Brains... | Dr Dipesh Navsaria**

Dr. Navsaria will discuss the critical importance of the first thousand days of life and the key role human relationships and interactions play during that time period, along with concepts of toxic stress and how early adversity leads to lifelong issues. The importance of early literacy, along with key concepts about literacy development will be reviewed. The structure and concept behind the Reach Out and Read program (which provides early literacy promotion) will be discussed in this context as a workable approach for busy primary-care medical settings.

**10:45-11am Break**

**11am-Noon Teachers, Toddlers, and Tissues Unplugged: a candid conversation on children's health and safety**

Have you ever wished you could see a podcast conversation on keeping kids healthy and safe in early childhood education unfold before you? Rachel Giannini and Dr Dipesh Navsaria, co-hosts of the [Teachers, Toddlers, and Tissues podcast](#), will use a similar format to hold an expert conversation right in front of you, and take your questions! (Don't worry, it's "unplugged" — meaning it won't be recorded like an actual episode would. But you get your own, live, personalized podcast!). Come with your questions, and we'll have your answers!

**Noon-1pm Lunch & Networking - Exhibitors Open**

**1-2:30pm Love and Resilience! You've Got This | Rachel Giannini**

We are all experiential learners, and in a time unlike any other, we've all learned a lot! In this keynote, we reflect on the love, resilience, and little wins that help us through every day! The keynote is all about reflection. Using prompts from literacy and guided by the principles of resilience, the participants take a closer look at the amazing work they do.

**2:30-2:45pm Wrap up & Door Prizes**
